

## **GÖTA CANAL HIGHLIGHTS, 3 DAYS** A cruise along the most beautiful parts of the Göta Canal Norsholm – Mariestad 2022

Day 1		
09.00		Departure by bus from Stockholm, Vasagatan 1 (by the Radisson Blu Royal Viking Hotel, next to the Stockholm Central Station and the City Terminal).
		Please note that the bus transfer from Stockholm to Norsholm must be booked in advance.
11.30	Dep. Norsholm	Our cruise with the M/S Wilhelm Tham begins in Norsholm. Here the canal crosses the main railway line between Stockholm and Malmö. The lock in Norsholm regulates the water level of Lake Roxen.
11.30 - 13.30	Lake Roxen	33 metres above sea level.
13.30 - 14.30	<u>Berg</u> (Carl Johan)	The Carl Johan lock staircase is the longest in the canal with seven connected locks. This lock staircase raises the boat 18.8 metres from Lake Roxen to the Berg guest harbour.
		The tour guide takes us on a walk (app. 3 km) to see the Vreta Kloster church and the remains of the convent. As an alternative you can walk along the canal or take a refreshing swim in Lake Roxen.
		The convent of Vreta dates from about 1100 and was the first nunnery in Sweden. Its importance was later superseded by the convent founded by Saint Bridget (St. Birgitta) at Vadstena. The old convent church at Vreta is one of Sweden's most interesting, offering many medieval treasures. Today, it is used as a parish church and is therefore not always open to visitors.
16.10	Berg (Heda)	The ship has passed all 15 locks in the Berg lock system. It is time to board for departure.
16.30	Ljungsbro, aqueduct	Here we pass the first of two aqueducts in the canal. This one was built in 1970.
19.40	Kungs Norrby, aqueduct	The aqueduct at Kungs Norrby was built in 1993 as part of the national route 34.
20.00 - 20.10	Borensberg	At Borensberg there is a hand-operated lock with a change in level of only 0.2 metres. Shortly before the lock we pass a lovely octagonal gazebo leaning out over the canal in a sharp bend, known as the "Helmsman's Horror", and after that we see the well-known Göta Hotel, built in 1908.
20.20	Arr. Borensberg	We dock for the night in the idyllic village Borensberg.
<b>Day 2</b> 06.20	Dep. Borensberg	
06.20 - 07.20	Lake Boren	Our boat slowly traverses Lake Boren, 73 metres above sea level.
07.20 - 08.00	Borenshult	The lock staircase at Borenshult is the second longest in the canal, with five locks connected and a total rise of 15.3 metres. Here you might hear the nightingale sing.
09.00 - 10.30	<u>Motala</u>	It was Baltzar von Platen who drew up the plans for Motala, and today it is called "the Capital of the Göta Canal". In 1822 an engineering works, Motala Verkstad, was established here to serve the Göta Canal and is today considered to be the cradle of Swedish industry. Here you also find the head office of the Gota Canal Company, responsible for operation and maintenance. We visit the Motala Motor Museum, with its large exhibition of antique cars and motorcycles in authentic surroundings, collection of radios, toys, household appliances and more. You can also walk to see Baltzar von Platen's grave, about 1 km along the left side of the canal.

10.30 - 12.40	Lake Vättern	With a length of 135 km and a width of 31 km, Lake Vättern is Sweden's second largest
		lake, 89 metres above sea level. The lake is unusually deep and its water is very clear.
12.40	Karlsborg	We pass Karlsborg and will be able to see the roof of the fortress, which was built in 1819- 1909.
13.40 - 15.30	<u>Forsviks Bruk</u>	Forsvik is one of Sweden's most interesting industrial communities. For six hundred years, iron has been worked, boards have been sawn and flour has been milled here. Historical buildings used for fine metalwork, a foundry and a wood pulp mill are found in this beautiful and unique environment. Informative displays tell about metalworking, engineering and life in this industrial community. Here we get to enjoy an interesting guided tour.
15.30 - 15.50	Forsvík lock	The lock at Forsvik, built in 1813, is the oldest one in the canal. The impressive iron bridge dates from the same year. In the lock we are sometimes greeted with songs and flowers by the Kindbom family, a religious group.
15.50 - 16.50	Billströmmen/ the Spetsnäs Canal	Through two narrow, wood-lined passages and small lakes full of water lilies, we steer out into Lake Viken.
15.50 - 18.00	Lake Viken	The beautiful Lake Viken (91.8 metres above sea level) serves as a water reservoir for the western section of the Göta Canal.
18.00 - 18.10	Tåtorp	There is another hand-operated lock at Tåtorp. From here on we will be going downwards!
18.30	The Berg Canal	The Berg Canal was excavated in 1931-33 to straighten a sharp bend in the canal and was
	The Obelisk	partly blasted into the living rock. At Lanthöjden an obelisk marks the highest point (91.5 metres above sea level) of the Göta Canal.
21.00	Töreboda	The railway line between Stockholm and Gothenburg crosses the canal here. Töreboda also proudly presents Sweden's smallest ferry, "Lina", which travels back and forth across the Göta Canal.
22.00	Arr. Hajstorp	There is a lock system consisting of four locks in beautiful surroundings at Hajstorp. In 1822 the western section of the Göta Canal was inaugurated at Hajstorp. Here is the Canal Engineer's home, now privately owned and the old smithy. Overnight stop.
Day3	Der Heistern	
06.00	Dep. Hajstorp	If you want to startch your logs this is a good place. Unistant to Codhagen look is ann
06.00 - 07.30	Godhögen	If you want to stretch your legs this is a good place, Hajstorp to Godhögen lock is app. 1.5 km.
09.50 - 12.00	<u>Sjötorp</u>	At Sjötorp there is a set of eight locks and also the remains of some old shipyards. We visit the old warehouse, where you can find a shop selling, among other things, clothes and home décor, a café and the Sjötorp Canal Museum. In the museum you can see old pictures of Sjötorp, the interiors of several old ships, and also learn more about the building of the canal. There is also a map of all the sunken ships in the Lake Vänern. Enjoy a lovely walk along the locks.
12.00 - 13.30	Lake Vänern	44 metres above sea level. Lake Vänern is Sweden's largest lake and the third largest lake in Europe, after the Ladoga and Onega lakes in Russia.
13.30	Arr. Mariestad	Our cruise ends on the shore of Lake Vänern, in the city of Mariestad. The old part of Mariestad is one of Sweden's most well-preserved wooden cities. The church tower is an impressive sight from the lake and on land.
16.00	Arr. Gothenburg	The bus arrives in Gothenburg, by the Clarion Hotel Post, Drottningtorget Square, at approx. 16.00. Please note that the bus transfer from Mariestad to Gothenburg must be booked in advance.

For information on other train and bus connections to Norsholm or from Mariestad, please visit <u>www.sj.se</u>

## **GÖTA CANAL HIGHLIGHTS, 3 DAYS** A cruise along the most beautiful parts of the Göta Canal Mariestad – Norsholm 2022

Day 1		
09.00		Departure by bus from Gothenburg, Drottningtorget Square (by the Clarion Hotel Post).
		Please note that the bus transfer from Gothenburg to Mariestad must be booked in advance.
11.30	Dep. Mariestad	Our cruise with the M/S Wilhelm Tham begins on the shore of Lake Vänern, in the city of Mariestad. The old part of Mariestad is one of Sweden's most well-preserved wooden cities. The church tower is an impressive sight from the lake and on land.
11.30 - 13.00	Lake Vänern	44 metres above sea level. Lake Vänern is Sweden's largest lake and the third largest lake in Europe, after the Ladoga and Onega lakes in Russia.
13.00 - 15.20	Sjötorp	Here we enter the first of the 58 narrow locks on the Göta Canal. At Sjötorp there is a set of eight locks and also the remains of some old shipyards.
17.40 - 19.20	<u>Godhögen–</u> Hajstorp övre	We pass a lock system consisting of four locks in beautiful surroundings. In 1822 the western section of the Göta Canal was inaugurated at Hajstorp. Here is the Canal Engineer's home, now privately owned and the old smithy. Take the opportunity to join the tour guide on a guided walk along the locks.
20.20	Töreboda	The railway line between Stockholm and Gothenburg crosses the canal here. Toreboda also proudly presents Sweden's smallest ferry, "Lina", which travels back and forth across the Gota Canal.
22.15	Arr. Vassbacken	We dock for the night at Vassbacken. When the western section of the Göta Canal was inaugurated, Vassbacken became a junction where the canal met the old country road. During 1830–1864 there was a postal station with the name of Wassbacken, and today this is a small museum.
Day 2 06.45	Dep. Vassbacken	
07.00	The Berg Canal	The Berg Canal was excavated in 1931-33 to straighten a sharp bend in the canal and was partly blasted into the living rock.
07.15	The Obelisk	At Lanthöjden an obelisk marks the highest point (91.5 metres above sea level) of the Göta Canal.
07.40 - 07.50	Tåtorp	One of the canal's two hand-operated locks is found at Tåtorp.
07.50 - 09.55	Lake Viken	The beautiful Lake Viken (91.8 metres above sea level) serves as a water reservoir for the western section of the Göta Canal.
08.55 - 09.55	The Spetsnäs Canal / Bill- strömmen	We steer through two narrow, wood-lined passages and small lakes full of water lilies.
09.55 - 10.15	Forsvík lock	The lock at Forsvik, built in 1813, is the oldest one in the canal. The impressive iron bridge dates from the same year. In the lock we are sometimes greeted with songs and flowers by the Kindbom family, a religious group. From here on we will be going downwards!
10.15 - 12.15	<u>Forsviks Bruk</u>	Forsvik is one of Sweden's most interesting industrial communities. For six hundred years, iron has been worked, boards have been sawn and flour has been milled here. Historical buildings used for fine metalwork, a foundry and a wood pulp mill are found in this beautiful and unique environment. Informative displays tell about metalworking,

13.00KarlsborgBefore our ship enters Lake Vattern, we pass Karlsborg and will be able to see the roof of the fortness, which was built in 1819-1909.13.00-15.00Lake VatternWith a length of 135 km and a width of 31 km. Lake Vattern is Sweden's second largest lake, 80 metres above sea level. The lake is unusually deep and its water is very clear.13.15-17.15MordaIt was Bultzar von Platen who drew up the plans for Motala, and taky it is called 'the Capital of the Gota Canal'. In 1822 an engineering works. Motala Veristad, was established here to serve the Gota Canal and is today considered to be the cratel of Swedish industry. It revy outs also find the badie doll fice of the Catal Canal Company, responsible for operation and maintenance. We visit the Motala Motala Veristad, was established here to serve the Gota Canal. And Edu Museum, with its large exhibition of anticup ears and motor-Yeou can also walk to see Bultzer von Platen's gerave, about It kn along the led's side of the canal.18.15-18.55Borens-hultThe hock staircase at Boren-shult is the second longest in the canal, with five locks connected and a total rise of 15.3 metres. Here you might hear the nightingale sing.18.55-19.55Lake BorenOur boat lawly traverse Lake Boren. 7 metres above sea level.20.00Arr. BorensbergAfter the lock we see the well-known Gota Hotel from 1008. Just past the hotel there is a lawly ot cangonal gazeth leaning out over a sharp hend in the canal, known as the 'Helmsmar's Horro'.05.30Kungs Norrby, aqueductHere we pass the second aqueduct on our journey. This one was built in 1970. aqueduct09.00Berg (Hed)We start our descent down 40 metres in the lock system of Berg (15 locks) towards Lake Rozen			engineering and life in this industrial community. Here we get to enjoy an interesting guided tour.
1515-17.15       Motala       It was Baltzar von Platen who drew up the plans for Motala, and Loday it is called "the Capital of the Gott Canal". In B222 an engineering works. Motala Verkstack, was established here to serve the Cota Canal and is today considered to whore Museum, with its large exhibition of antique cars and motorycles in aubtentic sorroundings, collection of sweetshi mutury. Here you also find the head office of the Gott Canal Company. responsible for operation and maintenance. We visit the Motala Motor Museum, with its large exhibition of antique cars and motorycles in aubtentic sorroundings, collection of adots, tays, household appliances and more. You can also walk to see Baltzar von Platen's grave, about 1 km along the left side of the canal.         18.15-18.55       Borenshult       The lock starcser at Broenshult is the second longest in the canal, with five locks connected and a total rise of 15.3 metres. Here you might hear the nightingale sing.         18.15-18.55       Lake Boren       Our boat slowly traverses I ake Boren, 73 metres above sea level.         20.00       Arr. Borensberg       After the lock we see the well-known Gota Hotel from 1908, just past the hotel there is a lovely octagonal gazebo learing out over a sharp bend in the canal, known as the "Helmsman" Horror".         05.30       Kungs Norrby, aqueduct at Kungs Norrby was built in 1993 as part of the national route 34. a lovely octagonal gazebo learing out over a sharp bend in the canal with seven charen at the rest mains of the convent. As an alternative you can alt shough chare horter has an the "Helmsman" Horror".         09.00       Berg (Heda)       We start our descent down 40 metres in the lock system of Berg (15 locks) towards Lake Roxen. <td>13.00</td> <td>Karlsborg</td> <td></td>	13.00	Karlsborg	
IssuesCapital of the Gota Canal'. In 1822 an engineering works, Motal Avestad, was established here to serve the Gota Canal and is tody considered to be the endule of Swechsh industry. Here you also find the head office of the Gota Canal Company, responsible for operation and maintenance. We visit the Motala Motor Museum, with its large exhibition of antique cars and motorcycles in authentic surroundings, collection of radios, toys, household appliances and more. You can also walk to see Baltzar von Platen's grave, about 1 Km along the left side of the canal.18.15 - 18.55BorenshultThe lock staircase at Borenshult is the second longest in the canal, with five locks connected and a total rise of 15.3 metres. Here you might hear the nightingale sing.18.55 - 19.55Lake BorenOur boat slowly traverses Lake Boren, 73 metres above sea level.20.00Arr. BorenshergWe dock for the night in the idylic village Borensherg, where there is a hand-operated lock with a change in level of only 0.2 metres.Day 3 05.00 - 05.10Dep. BorenshergAfter the lock we see the well-known Gota Hotel from 1908. Just past the hotel there is a lovely octagonal guzebo leaning out over a sharp bend in the canal, known as the 'Helmsman's Horror'.05.30Kungs Norrhy, aqueductThe aqueduct at Kungs Norrby was built in 1993 as part of the national route 34. aqueduct09.00Berg (Heda)We start our descent down 40 metres in the lock system of Berg (15 locks) towards Lake Roxen.10.20 - 11.20Berg (Carl Johan)The Carl Johan lock staircase is the longest in the canal with seven connected locks.
